### Treatment of children's diseases

It is obvious that hospitals which frighten adults can be regarded as true horror to kids. The following hospitals in Daejeon are turning themselves into places where children can feel at ease while getting treated. Their interior designs were refitted in a way that helps children feel peaceful. They have adopted a various method of treating children and young people in comfort.

#### Special treatment for children

We run special clinics specialized in new-born babies, premature babies, pediatric hematology-oncology, pediatric endocrinology, etc.

#### Height growth

We run a program that adopts methods offered by both Korean traditional medicine and western medicine to help children grow taller and correct their wrong posture.

#### Stabilization of mind and body

Students preparing for college entrance exam are likely to suffer sleep shortages and mental stress. We prescribe herbal tonic that helps producing protein type regenerating brain cells.
